DETAILED ACTION

Claims 1-3 are pending in this application.

Priority

Priority to Application Number 60/195,422 filed April 11, 2001, is acknowledged. However, applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 119 (e) as follows:

- An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application(s) in the first sentence of the specification (37 CFR 1.78).
- A non-provisional application claiming priority to a provisional application must be filed within 1 year of the provisional application's filing date. See: MPEP 201.04 (b).

Because the instant application was filed more than one year after the provisional application it claims benefit of, the filing date of the instant application is April 11, 2001.

Specification

The disclosure is objected to because of the following informalities:

- The pages are not numbered

- The last paragraph of the Summary of the Invention, describes attached drawings, there are no drawings in this application.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C.

112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is vague and indefinite because it is unclear how a composition can **remove** pimples and acne. Further, "an amount" as defined in claim 1 is vague and indefinite because it is unclear how much of an amount is added. What is the amount is effective for? How much rum is added to the composition?

The term "few" in claim 1 is a relative term, which renders the claim indefinite. The term "few" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

Claim 2 is vague and indefinite because it is unclear which generic brand name rum is in the composition.

Claim 3 is vague and indefinite because it is unclear which trademarked brand name rum is in the composition.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Gleave 4,477,436.

Gleave discloses a composition for treating hair and/or scalps of human beings, which contains rum and rosemary. Further, the reference describes how other alcohols could be utilized without departing from the scope of their invention. Thus, Gleave anticipates the claimed invention.
